About Me

I am a diligent and methodical second-year software engineering student with a strong passion for technology and innovation. Throughout my studies, I have built a solid foundation in software development, programming, and network design. My organizational skills and attention to detail have been key to successfully managing projects and working effectively in team settings. I am eager to apply the knowledge I've gained in my academic career to real-world scenarios and am excited to start my first professional experience. I look forward to contributing to a dynamic team and further developing my technical and problem-solving abilities.

Experience

Self-Employed English Teacher

2022-Present

Freelance English Teacher

As a self-employed English teacher, I design and deliver engaging lessons for primary school children. I tailor instructional materials to accommodate diverse learning styles and monitor student progress to provide targeted feedback and support. This role has allowed me to develop strong communication and organizational skills while making a positive impact on students' language development.

Rotaract Club of Colombo Heritage

2024 - Present

Member

As a member of the Rotaract Club of Colombo Heritage, I have been actively involved in various community service projects and events. My role includes collaborating with fellow members to plan and execute initiatives aimed at improving community well-being. I participate in leadership training sessions and contribute ideas for club activities, which has enhanced my ability to work effectively with others and build relationships with community organizations.

Interact Club

2019 - 2020

Member

During my time with the Interact Club, I was engaged in organizing and participating in community service events. My involvement included contributing to fundraising efforts, awareness campaigns, and other projects focused on leadership and personal development. This experience allowed me to work closely with a team of dedicated individuals, fostering a strong sense of teamwork and commitment to community service.

Education

Bsc (Hons) Computer Science

2023 - Present

University of Bedfordshire

Currently pursuing a degree in Computer Science at Bedfordshire University, offered through SLIIT City University. The program includes comprehensive coursework in various aspects of computer science, including programming, network design, and software engineering. This education is equipping me with the technical skills and knowledge necessary for a successful career in the field.

Diploma In English Language

2023 - 2024

IMBS Green Campus

Completed a diploma in English at IMBS Campus, focusing on advanced language skills and effective communication. This program enhanced my proficiency in English, which has been instrumental in both my academic and professional endeavors.
